

This **Business ADSL Service Agreement** ("Service Agreement") sets forth the specific terms and conditions under which LightEdge Solutions, Inc. ("LightEdge") shall supply certain Services to Customer. The Master Service Agreement entered into between LightEdge and Customer fully incorporates the terms herein and provides that this Service Agreement, and Customer's execution of the Master Service Agreement constitutes acceptance of the terms and conditions stated herein. Capitalized terms used but not defined herein shall have the meanings set forth in the Master Service Agreement. The Initial Term length for this Service is set forth on the applicable Purchase Agreement, executed by LightEdge and Customer, making reference to this Service.

1.0 Terminology

Authorized Contact: "Authorized Contact" is a representative authorized by Customer to request service changes using procedure outlined herein.

Codeword: "Codeword" refers to a secure password known only to Authorized Customer point of contacts and representatives of LightEdge.

Customer: "Customer" is party LightEdge is entering into Service agreement with.

Customer Network: "Customer Network" refers to the entire network Customer makes available to Remote Users as part of this Service. Customer Network may include many different physical locations and/or physical pieces of Equipment.

Customer Premise: "Customer Premise" refers to the physical address (as stated in the Purchase Agreement) where the LightEdge has been requested to provide services.

Equipment: "Equipment" refers to equipment that LightEdge has deployed at Customer Premise to enable a service.

Service: "Service" refers to the Service and/or circuit used to connect Customer Premise to LightEdge Solutions' network. The use of Service in this document is specific to the service outlined in this document. Use of the term Service in any other LightEdge documentation in no way supersedes the definitions of Service outlined herein.

2.0 Service Description

2.1 General

LightEdge will provide Customer with point-to-point network connectivity Service between the Customer Premise identified below and the LightEdge Internet Protocol ("IP") network. Service will be delivered in the form of a dedicated ADSL circuit engineered by LightEdge which will be dependent upon location, bandwidth and/or Services requested.

ADSL is asymmetric data Service to the Customer's premises and is provided over a voice telephone line or unbundled copper pair at the Customer's premises. The downstream bandwidth (from LightEdge to the Customer) is typically higher than the upstream bandwidth (from the Customer to LightEdge). The Customer eligibility for ADSL bandwidth depends upon the distance the Customer Premise is from the Central Office.

2.2 Levels

This section intentionally left blank.

2.3 Availability

The availability of ADSL is dependent on distance from the nearest "ADSL-capable" Qwest central office. Availability to Customer Premise is dependent on a pre-qualification cycle to be initiated by LightEdge. LightEdge reserves the right to limit availability of Service even if pre-qualification cycle determines Customer Premise to be Serviceable by ADSL.

LightEdge also reserves the right to limit service availability in the event that necessary service components including, but not limited to, electrical power, cooling capacity, cabling, rack space, switching/routing/network infrastructure, application software, etc. are either unavailable or unattainable at a reasonable cost to LightEdge.

2.4 Delivery

This section intentionally left blank.

2.5 Features

This section intentionally left blank.

2.6 Moves, Adds and Changes

Service moves are subject to approval by LightEdge and may be subject to termination liability, rate changes and/or new term length commitments. Service move is dependent on availability of identical Service from same provider at new location.

Customers who have Service in off-net locations cannot move the Service to another location during contract term unless they have fulfilled the minimum 12 month service period and are moving to a location that is serviced out of the same servicing wire center as the original Service.

2.7 Limitations

2.7.1 Bandwidth

Customer acknowledges that final speed of service will not be known until time of provisioning and additional copper lines may be needed to reach customers contracted speed. If service requires additional copper lines, customer agrees to amend contract appropriately. If service is deemed unfeasible to deliver due to lack of available copper, LightEdge reserves the right to deem contract for service null and void. The bandwidth available with this service is dependent on distance from the customer site to the nearest DSL capable Central Office, as well as, the quality of the circuit provided to LightEdge. Bandwidth available on service may decrease at any time during the duration of the service contract due to quality issues outside of LightEdge's control. LightEdge will make all efforts to return service to speed available during initial provisioning of service. . If at any point service is deemed unfeasible to deliver at original bandwidth LightEdge reserves the right to deem contract for service null and void. Service SLAs will not apply to service if root cause of outage is deemed to be related to the bandwidth available to the service that are due to changes made by the ILEC providing the copper to LightEdge.

3.0 Service Options

The following features may be included with Customer Service. Description of Service feature herein in no way entitles customer to feature. Features described below may have additional cost associated with them.

3.1 Config, Stage, and Ship

LightEdge offers Configuration, staging and shipping of Customer Equipment used to terminate Service. Configuration only includes configuration of Equipment to support LightEdge Service. LightEdge reserves the right to bill customer at current hourly rates for configuration requests that are not required to provide Service outlined herein.

Shipping of equipment includes standard ground shipping. LightEdge reserves the right to bill customer if any alternative shipping method is requested by Customer.

3.2 Device Maintenance

LightEdge offers replacement of Customer Equipment used to terminate Service. Device Maintenance availability may be limited by geographic location of equipment.

3.2.1 Next Business Day (NBD)

From such time as Equipment is diagnosed by LightEdge support as failed LightEdge will provide a replacement piece of Equipment of equal or greater functionality for Customer by next business day. Equipment will be configured with last available configuration of failed Equipment.

Customer is responsible for physical replacement of failed gear. Truck roll services may be available at additional charge.

3.2.2 24x7x8 hour

From such time as Equipment is diagnosed by LightEdge support as failed LightEdge will provide a replacement piece of Equipment of equal or greater functionality for Customer within eight (8) hours. Equipment will be configured with last available configuration of failed Equipment. LightEdge will assist Customer with physical and logical replacement of failed Equipment.

From such time as Equipment is diagnosed by LightEdge support as failed LightEdge will provide a replacement piece of Equipment of equal or greater functionality for Customer within eight (8) hours. Equipment will be configured with last available configuration of failed Equipment.

Customer is responsible for physical replacement of failed gear. Truck roll services may be available at additional charge.

3.3 Device Management

LightEdge offers management of Customer Equipment used to terminate Service. Device management only includes configuration and management of Equipment necessary to support LightEdge Service. LightEdge reserves the right to bill customer at current hourly rates for configuration requests that are not required to provide Service outlined herein. Terms of Device Management feature are outlined in the Device Management SLA.

3.4 DNS

LightEdge operates "resolving" or "caching" DNS servers that Customer may use for domain name look-ups by Customer's in-house systems (PCs, mail servers, etc.) that are connected to Service. This domain name look-up Service is only available if LightEdge is providing primary DNS or primary and secondary DNS to Customer and if Customer does not have its own DNS server(s), and it may not be used by Customer's spam detection software for querying spam block lists.

Customers running their own DNS Servers or relying on third parties to host their domain names must use their own servers or the third party's DNS Servers for this purpose. These servers may not be configured to forward DNS queries to LightEdge's DNS Servers. Customers may not make more than 150 DNS queries per minute averaged over 30 minutes and/or more than 600 DNS queries per minute during any 5-minute interval.

LightEdge will provide reverse DNS at the request of Customer for all IP addresses statically routed to Customer as part of Service.

3.4 Firewall

At the request of Customer LightEdge will provide Customer with Managed Firewall Service ("Service") at the Customer Premise. Service will include enabling firewall functionality on specific models of Equipment. LightEdge reserves the right to refuse to enable firewall functionality on Equipment at any time. LightEdge reserves the right to require Customer to upgrade to dedicated managed firewall Service through LightEdge or to require Customer to install firewall Equipment at Customer's expense to obtain firewall functionality.

Service demarcation will be delivered in the form of one internal, or "secured", RJ-45 10BaseT or 100BaseT Ethernet jack. Customer must allow LightEdge to have unrestricted network access to the Equipment from a LightEdge designated IP subnet.

Customer is responsible for determining any and all filtering rules, as they deem appropriate, and communicating these to LightEdge. LightEdge is responsible for implementing these filtering rules requested within the constraints of the Service. Following initial consultation, configuration and placement of Equipment by LightEdge, Customer may request up to ten (10) configuration changes per year. Additional configuration changes can be purchased at rates outlined in LightEdge internal rate card. LightEdge Technical Support will be available five (5) days per week; Monday-Friday 8:00am-6:00pm (CST) excluding Federal holidays.

3.5 Premium Wiring

LightEdge offers installation of wiring or cabling used to terminate Service. Premium wiring only includes configuration and management of wiring or cabling necessary to support LightEdge Service.

4.0 Service Delivery

4.1 General

It is Customer's responsibility to ensure that all devices at Customer Premise are able to connect to Equipment and are configured properly. This includes but is not limited to Ethernet switches, Ethernet cabling, workstations, servers and operating systems.

4.2 Installation

If required LightEdge offers the following provisioning options for Service at additional charge as described in the Customer's Service Agreement:

- 1) Premium Wiring - the installation of wiring, if necessary, between the demarc and one jack
- 2) Configuration and Shipment - the remote configuration of Equipment necessary to terminate Service and shipment of Equipment to Customer
- 3) Onsite installation - the onsite installation of Equipment necessary to terminate Service, the connection and/or installation of one computer to the modem or router, and confirmation that the Customer's computer can successfully access the LightEdge network via the Service.

If additional configuration work is required due to limitations of the Customer Network then LightEdge reserves the right to bill customer at current hourly rates for additional configuration time.

LightEdge is NOT responsible for and will not be obligated to provide any support of or assistance in configuration, installation, administration, troubleshooting, maintenance, or repair of such customer equipment or integration of such customer equipment into Customer's internal network. LightEdge is NOT responsible for and will not be obligated to provide any support of or assistance in configuration, installation, administration, troubleshooting, maintenance, or repair of any software or network application or integration of such software or hardware application into the Customer Network.

Customer shall be responsible for any travel expenses incurred by LightEdge in the course of providing onsite installation service.

4.3 Cabling

Service to Customer Premise will be delivered into the nearest telephone demarcation point of the Customer Premise. LightEdge will extend service from the telephone demarcation point to customer equipment up to 50ft. LightEdge will not extend wiring through existing walls or permanent ceiling. LightEdge will not extend wiring where the cable needs to be installed 12ft or higher (warehouse) above walking surface. LightEdge is not responsible for existing station cables within the customer premise. The customer is responsible for providing all patch cables from the CPE (router/switch) equipment to the in-house cabling infrastructure. LightEdge will provide a 3 foot patch cable from wall jacks to LightEdge managed VoIP equipment (Phones, Sipura)

LightEdge offers the following cabling options for service at additional charge as described in the Customer Service Agreement. Available install services at customer premise may include (a) pre-install walk through of customer's existing or new premises. (b) troubleshooting station cabling in customer premise.

LightEdge reserves the right to bill customer at current market rates for any cabling required to support service. LightEdge reserves the right to use outside cabling contractors to perform cabling work.

4.4 Service Upgrades

LightEdge may use other carrier networks and/or Equipment to provide Customer with equivalent Service. LightEdge reserves the right to replace Customer Service with equivalent or upgraded Service at any time during contract duration. LightEdge will make an effort to coordinate any such Service change with the Customer prior to such change. If LightEdge is unable to coordinate an acceptable time for a Service change with the Customer LightEdge reserves the right to make such a Service change during a scheduled maintenance window.

5.0 Equipment

5.1 Equipment Purchase

Customer can purchase Equipment outright or lease Equipment through LightEdge as set forth in the Customer's Master Service Agreement.

5.2 Equipment Requirements

LightEdge will define Equipment to be used with Service. LightEdge maintains a list of compatible Equipment and reserves the right to modify this list of compatible Equipment at any time.

LightEdge reserves the right to classify previously supported Equipment as "end of sale" or "end of life".

Equipment classified as "end-of-sale" will no longer be sold to a Customer even if Customer had previously purchased that specific Equipment. LightEdge will make every effort to continue to support Equipment classified as end-of-sale for as long as possible. LightEdge reserves the right to reclassify of end-of-sale Equipment as end-of-life at no less than six (6) months after such Equipment has been classified as end-of-sale Equipment.

Equipment classified as "end-of-life" will no longer be supported or sold by LightEdge. If Customer has Equipment that has been classified as end-of-life in Service LightEdge reserves the right to force Customer to upgrade to supported Equipment at Customer's expense in order to provide Service to Customer. LightEdge does not relinquish this right even if Equipment was sold to Customer by LightEdge.

5.3 Equipment Configuration

Customer is responsible for all Equipment configuration changes not specifically outlined herein. Customer is responsible for any Equipment modifications necessary at Customer Premise to accommodate Service outlined herein.

5.4 Equipment Failure

Unless Customer has contracted with LightEdge for Equipment warranty Customer is responsible for any failure of Equipment.

6.0 Service Support

6.1 Authorized Contacts

LightEdge Solutions provides reliable and secure managed services by requiring technical support and information requests come only from documented, authorized client-organization contacts. Additionally, in compliance with federally regulated CPNI (Customer Proprietary Network Information) rules, a customer contacting LightEdge Solutions to request an add, move, or change and/or to request information on their account, must provide LightEdge representative with customer's Codeword. Codeword is not required or verified to open trouble tickets related to service issues, however, any subsequent information/updates or authorization of intrusive testing related to the trouble ticket will require the Codeword.

Customer shall provide a "contact list" which will contain one ("1") Administrative contact and may contain up to three ("3") Technical contacts per service. Administrative and Technical contacts are authorized to request service changes or information, including the contact name, contact e-mail address and contact phone number for each contact but must provide customer Codeword for any CPNI related requests. Requests to change a contact on the list or to change the Codeword must be submitted by the Administrative contact. Requests to replace the Administrative contact shall be submitted via fax to LightEdge on customer company letterhead. All requests are verified per procedure below.

- Requests for CPNI, configuration information or changes are accepted only from documented, authorized client-organization contacts via e-mail, fax or phone and will require Customer's Codeword. E-mail and fax requests must be submitted without the Codeword. Customer contact will be called to verify Codeword. E-mail requests that include the Codeword will be denied and the client Administrative Contact will be notified and required to change the Codeword.

- E-mail and fax requests are verified with a phone call to the documented client contact. Phone call requests must be validated with an e-mail request from a documented client contact.

6.2 Helpdesk

Customers must contact LightEdge Support to report service trouble or an outage with LightEdge Technical Support. LightEdge Technical Support will be available seven (7) days per week; twenty-four (24) hours per day; three hundred sixty-five days (365) days per year. LightEdge Technical Support provides support for network monitoring, trouble ticket resolution, and fault isolation up to the termination point of LightEdge Equipment.

LightEdge Technical Support will accept trouble and outage related support calls from any customer representative. Requests for service changes or information are accepted from any Authorized Contact per conditions and procedures described above in Section 6.1. LightEdge will not perform any requested activity which may cause Service disruption or perform any changes to Service unless request is initiated by an Authorized Contact. LightEdge reserves the right to delay response on support tickets opened by anyone other than the Authorized Contact.

Communication between Customer and LightEdge not initiated by Authorized Contact will not be subject to SLA remedies.

All communications with Customer will be in the English language.

6.3 Support Limitations

LightEdge Technical Support is not responsible for support of Remote Users of Service. This includes (but is not limited to) Customer operating systems, Remote Users behind firewalls or proxies and inability to run specific applications over Service.

6.4 Monitoring

At Customer's request, LightEdge will provide basic monitoring of Service availability and utilization. Utilization reporting may require Simple Network Management Protocol ("SNMP") access to Equipment from a LightEdge designated IP subnet. Availability monitoring and reporting requires Internet Control Message Protocol ("ICMP") access to Equipment from a LightEdge designated IP subnet. LightEdge will provide e-mail (to pager) notification of Service availability issues. LightEdge will provide 24 x 7 response to Customer or NOC initiated alarms for Service availability issues. Service usage reports will be made available at <http://my.LightEdge.com>.

6.5 Notifications

If requested by Customer LightEdge will notify Customer within fifteen (15) minutes of a Service outage via e-mail (to pager) notification Services. LightEdge will monitor connections to the IP address of the customer router. An outage is defined as any fifteen (15) consecutive minutes where the connection is unavailable. If an outage is determined, LightEdge will generate an e-mail notification to Customer. Customer is responsible for providing their own pager (s), a suitable e-mail-pager gateway, and up to two (2) corresponding e-mail addresses.

6.6 Maintenance

Maintenance window for disruptive work to service will be limited 12:00 A.M. to 4:00 A.M., local time, any day with requirement of two (2) business day notification to Customer prior to maintenance.

LightEdge will send an e-mail notification of such disruptive maintenance to Service to Authorized Contacts of Customer. Once notification is sent to Customer this will be considered a "scheduled maintenance". Any Service SLAs will not apply during a scheduled maintenance.

LightEdge reserves the right to perform emergency Service or network maintenance as needed outside this window, in which case LightEdge will make a reasonable effort to notify the Customer if feasible under the circumstances. Any such maintenance will be considered an "emergency maintenance". All Service SLAs will apply during emergency maintenance.

Customer is responsible for maintaining and updating Authorized Contact list with LightEdge. LightEdge will not be held responsible for maintenance notifications missed due to out-of-date Authorized Contact information.

6.7 Backup and Recovery

LightEdge makes no warranty or representation of any data backup with this Service.

7.0 Billing

7.1 Service Activation Date

Billing for the Service Component will begin on the Service Activation Date, as specified below, for the specific Service type.

The Service Activation Date is the date (i) Equipment is installed and tested at the Customer's locations, and (ii) IP connectivity to LightEdge has been established.

7.2 Additional Charges and Fees

7.2.1 Field Technician Charge (FTC)

The FTC of the current rate is incurred for each dispatch of a Service tech. This fee is waived for Customers who select the Managed Equipment Option at that location.

7.2.2 Missed Appointment Fee

Customer or its authorized representative must be available at the Customer location for the scheduled installation appointment date to grant the Service tech access or to accept delivery of the Equipment, or to work with installation technician to turn up the service. If no one is available, the Service tech will attempt to contact LightEdge and the Customer by phone for up to 15 minutes.

Re-scheduling such missed appointment will incur a Missed Appointment Fee at the current applicable rate.

7.2.3 Minimum Retention Period – Moves

In the event Customer terminates the Service before the expiration of the contracted period, due to a move, then Customer shall pay the termination charges in accordance with the Customer's Service Agreement. LightEdge will waive the termination charges, if Customer purchases another Service from LightEdge at a new location, which is of the same or greater value and subscribes to a new minimum contracted period of at least twelve (12) months. Additional Equipment charges may apply depending on the type of the new Service that is being purchased by Customer. If service is not available at new location, customer is subject to termination charges per the Master Service Agreement.

8.0 Customer Requirements

Customer shall be fully responsible for providing to LightEdge at Customer's own expense and in a timely manner the following:

- All security for its Services and systems used or accessible in connection with Service.
- Cooperative testing of all Customer-provided hardware, software, and Services for compatibility with Service.
- Designating an Authorized Contact(s) to be the point of contact to interface with LightEdge Technical Support.
- All cabling necessary to support Service
- An Equipment room environmentally compliant with local laws and other environmental conditions as specified by LightEdge; reasonable access to the Equipment at times specified by LightEdge; adequate work space, heating/cooling, light, ventilation, and electrical outlets and for any Service

10.0 Service Level Agreements

10.1 General

LightEdge will be the sole party to determine whether LightEdge has not met any of the Service level agreements specified herein. LightEdge reserves the right to change or discontinue any or all of the Service level agreements detailed below at any time without notice to the Customer. Customer must at all times cooperate with LightEdge in testing, determining and verifying that a qualifying Service outage has occurred.

which requires a telephone line, as detailed in the Service Guide, Customer shall also make available to LightEdge for diagnostic purposes a local exchange carrier dedicated inbound telephone (POTS) line, which shall not be used by Customer for any other purpose while Service is being provided. Customer shall also arrange provide timely access to any rights of way, which LightEdge deems necessary to provide, maintain or remove the facilities required for any of the Services on all applicable premises without charge or cost to LightEdge. Equipment shall not be removed, relocated, modified, interfered with, or attached to non-LightEdge Equipment by Customer without prior written authorization from LightEdge.

9.0 Service Conditions

Customer acknowledges and understands that dedicated network connections, unless protected by an Internet security product or Service, may significantly decrease Customers overall network security level and performance. To the extent Customer deems necessary, Customer will implement security procedures and controls necessary to limit access to the Service and Customer will maintain facilities and procedures external to the Service for reconstruction of lost or altered files, data or programs.

Customer understands that LightEdge will make commercially reasonable efforts to provision Service. However, provisioning of Service is contingent upon the availability of Service capable local loops to Customer's location being made available to LightEdge. If no such Service-capable local loop is available to LightEdge, then Service will not be provisioned and if delivery of the local loop is delayed, then provisioning of Customer's Service will be delayed as well.

Customer understands that the actual bandwidth that can be delivered on a Service capable loop will not be determined until the time of Service installation. The actual bandwidth may be different than the estimated bandwidth provided to Customer by LightEdge at the time of ordering the Service. The speeds quoted are maximum upload and download speeds and may vary during the Service Period.

Customer understands that even after the Service circuit is provisioned and operational, certain conditions may impact the quality and use of the line. Service will be impacted if it is determined that the loop length between the Central Office providing the local line and the Service location exceeds capability of the specific DSL technology being used to provide Service. Environmental issues such as quality of the telephone line, interference from other Service connections, high frequency sources close to the telephone line, etc. may deteriorate the quality or speed of the Service circuit resulting in reduced throughput. LightEdge will undertake reasonable effort to restore the original quality or speed, but restoration is not guaranteed and the Service may be deemed technically not feasible. If the Service circuit is deemed technically not feasible, the Customer will be asked to disconnect the circuit at no cost or without penalty. If the Customer chooses to continue to use the circuit, after it is deemed technically not feasible, Customer understands that the line will not be supported by LightEdge from a maintenance perspective.

Customer acknowledges that in the event of a trouble, Customer is responsible for on-site cooperative testing with LightEdge Technical Support to assist in the diagnosis of the trouble, including the cost of a 3rd party vendor if customer does not have internal resources available.

Customer agrees to be bound to current terms of LightEdge Acceptable Use Policy. Terms of the Acceptable Use Policy are subject to change without notice. Customer agrees to be bound to any and all versions of LightEdge Acceptable Use Policy. Current Acceptable Use Policy can be found here: <http://www.LightEdge.com/legal>

10.2 SLA Credit Request Process and Limitations

In order to receive any of the SLA credits (specified herein) for Service, an Authorized Contact must immediately notify LightEdge Technical Support of an occurrence within the LightEdge Service that results in the inability of the Customer to transmit IP packets within the LightEdge Service ("Service Outage"). A Service Outage does not include an outage that occurs during scheduled periods of maintenance or upgrades.

LightEdge Technical Support will investigate the reported outage and assign a Trouble Ticket number. Once LightEdge determines that the substantiated Service Outage that could qualify Customer for the SLA credit occurred ("Verifiable Trouble Ticket"), then Customer may request a Service Credit within 30 days after the event giving rise to the credit by contacting LightEdge Technical Support and asking for an SLA credit escalation. A Verifiable Trouble Ticket must accompany Customer's request for any SLA credit regarding the Service purchased by Customer. Credits should appear on Customer's bill for the Service within two (2) billing cycles, after such SLA credit has been approved by the LightEdge representative.

In any calendar year, Customer's aggregated SLA credits may not exceed, for any Service, three (3) month's worth of the monthly Service fee for the affected Service. For purpose of calculating SLA credits, this monthly Service fee shall mean the monthly recurring charge for such line, but excluding, in all cases, (i) any monthly recurring fees for the Service features (e.g., domain name hosting or e-mail Service), (ii) all one-time charges; and (iii) at all times excluding the monthly recurring charge attributable to Equipment for such line.

Credits are exclusive of any applicable taxes charged to the Customer or collected by LightEdge.

SLAs dependant on packet size require use of a 64-byte packet to determine SLA eligibility.

10.3 SLA Exclusions

10.3.1 Global SLA Exclusions

SLAs do not apply and LightEdge is not responsible for failure to meet an SLA resulting from:

- Misconduct of Customer or Users of Service
- Failure or deficient performance of power, Equipment, Services or systems not provided by LightEdge
- Delay caused or requested by Customer
- Service interruptions, deficiencies, degradations or delays due to any access lines, cabling or equipment provided by third parties
- Service interruptions, deficiencies, degradations or delays during any period in which LightEdge or its representatives are not afforded access to the premises where access lines associated with Service are terminated or LightEdge Equipment is located
- Service interruptions, deficiencies, degradations or delays during any period when a Service Component is removed from Service for maintenance, replacement, or rearrangement purposes or for the implementation of a Customer order
- Customer's election to not release a Service Component for testing and/or repair and to continue using the Service Component
- Force Majeure conditions such as fire, explosion, lightning, power surges or failures, strikes or labor disputes, water, acts of god, the elements, war, civil disturbances, terror, acts of civil or military authorities, fuel or energy shortages, acts or omissions of suppliers or other causes beyond LightEdge's control, whether or not similar to the foregoing.
- Service interruptions, deficiencies, degradations or delays during any period when a Service Component is removed from Service for maintenance, replacement, or rearrangement purposes by Customer staff.
- Failure to provide suitable secure environment for on premise devices including but not limited to: secure mounting/racking, appropriate cooling and air handling, secure from theft, loose wires bundled neatly, etc.
- Service interruptions, deficiencies, degradations or delays in Service caused by any piece of equipment, configuration, routing event or technology not under the management and control of LightEdge.
- Failure to adhere to LightEdge recommended configurations on unmanaged equipment.
- Over 30 day past due balance on any billing or service with LightEdge.

In addition, Service SLAs do not apply (a) if Customer is entitled to other available credits, compensation or remedies under Customer's Service Agreement for the same Service interruption, deficiency, degradation or delay, (b) for Service interruptions, deficiencies, degradations or delays not reported by Customer to LightEdge, (c) where Customer reports an SLA failure, but LightEdge does not find any SLA failure, and (d) when Service is dependent upon other Service with lower SLA.

If Customer elects to use another provider or method to restore Service during the period of interruption, Customer must pay the charges for the alternative Service used.

10.3.2 Service SLA Exclusions

None yet identified.

10.4 SLA Classifications

10.4.1 Availability

"Availability" SLAs apply only when service is completely unavailable due to any sort of issue. After Customer opens a ticket on Service issue LightEdge Technical Support will classify the issue. If LightEdge Technical Support determines that Customer service is 100% unavailable the issue will be categorized as a "Service Availability" issue and all SLA remedies applicable to Service Availability will apply. Any SLA remedies not specifically defined as "Service Availability" SLAs will not apply to same "Service Availability" issue.

10.4.2 Performance

Performance SLAs apply if Service is available in a degraded state. After Customer opens a ticket on Service issue LightEdge Technical Support will classify the issue. If LightEdge Technical Support determines that Customer service is available albeit with performance degradation the issue will be categorized as a "Service Performance" issue and all SLA remedies applicable to Service Performance will apply. Any SLA remedies not specifically defined as "Service Performance" SLAs will not apply to same Service issue.

Service Performance SLA credits will not be given if Service Availability SLA credits are requested against same Customer issue.

10.4.3 Other

"Other" SLAs apply whenever SLA goal has not been met. "Other" SLA credits will qualify for consideration even when "Service Availability" or "Service Performance" SLA credits are requested against the same Customer issue.

10.5 Availability SLA Goals
10.5.1 Availability SLA

There is no Availability SLA with this Service.

10.5.2 Service Repair Objective

For purpose of the Repair Objective, the duration of a Service Outage shall be deemed to commence upon the determination by LightEdge Technical Support that Service Repair is necessary and ends when the Service Repair has been completed.

Goal	Objective
2 business days	LightEdge will make all reasonable efforts to resolve problems resulting from Customer initiated trouble tickets for this Service within two (2) business days.

10.6 Performance SLA Goals
10.6.1 Latency SLA

There is no Latency SLA with this Service.

10.6.2 Packet Delivery SLA

There is no Packet Delivery SLA with this Service.

10.6.3 Service Jitter SLA

There is no Jitter SLA with this Service.

10.7 Other SLA Goals
10.7.1 Monitoring SLA

The Monitoring SLA goal is measured from the time an outage is detected by LightEdge monitoring systems until such outage is reported to customer by the LightEdge automated notification system. The goal is considered met once the LightEdge monitoring system sends a notification to the customer. Receipt of the notification by the customer or lack of receipt will not be considered to be part of SLA goal.

Goal	Remedy
30 minutes	Each failure to meet the goal qualifies Customer for a credit of 1% of MRC per event up to a maximum of 50% of MRR for affected service.

10.7.2 Backbone Latency SLA

There is no Backbone Latency SLA with this Service.

10.7.3 Backbone Packet Delivery SLA

There is no Backbone Packet Delivery SLA with this Service.
