### INDUSTRY

Nonprofit

### SOLUTIONS IMPLEMENTED

Data Centers, Disaster Recovery, Private Cloud

## BUSINESS CHALLENGE

- ▲ Goodwill of Central Texas was looking to consolidate their data center footprint.
- ▲ They needed to move away from owning servers, managing equipment, and everything else that goes along with an in-house setup.
- ▲ Required a disaster recovery plan to ensure business continuity.

**“We chose to work with LightEdge because of their specialization in compliance and security due to our PCI requirements, and they did not disappoint. In fact, the LightEdge implementation team completed the migration months ahead of schedule. We were able to offload our existing infrastructure and take advantage of their managed private cloud. Now Goodwill can focus on our core business, and we couldn’t be more pleased with LightEdge’s service.”**

**— Mitchell McGovern,  
Interim VP & CIO**

**Goodwill of Central TX**
