

LIGHTEDGE CLOUD SERVICES

OUR HIGHLY-INTERCONNECTED HYBRID SOLUTION CENTERS & COMPLIANT OFFERINGS

SERVICES

What's the LightEdge difference? Tailored cloud solutions through a diverse portfolio of platforms to suit your business. Our flexible and scalable models allow for seamless strategic changes to your cloud infrastructure as your business and workloads grow.

- ▲ **Virtual Private Cloud:** Takes advantage of a cost-effective multi-tenant model for infrastructure and virtualization, with a focus on security, compliance and ease of use.
- ▲ **Dedicated Private Cloud:** Offers a single-tenant model with the highest level of performance, control, and security at a predictable monthly price.
- ▲ **Power Cloud:** Provides specialized solutions to ensure the stability and evolution of your IBMi (AS/400, iSeries) and AIX environment.
- ▲ **Bare Metal Cloud:** Provides being physically discrete with high performance, dedicated servers, storage, and network uniquely configured for each customer.

CLOUD HOSTING

We don't believe in one-size-fits-all. LightEdge's cloud and hosting provides customizable solutions, enterprise-class equipment, and full hybrid support.

- ▲ Disaster Recovery, Managed Services, and Security Services
- ▲ Self-service cloud and managed hosting options
- ▲ HIPPA/HITRUST-certified private cloud configurations

HYBRID SOLUTIONS

Run your workloads where they perform best, and never compromise on security. LightEdge's hybrid hosting solutions allow you to mix and match services to your exact needs and offer the flexibility to adapt your environment on the fly. Address the needs of today and tomorrow with cloud and managed services.

- ▲ Highly flexible hybrid computing
- ▲ Integrated multi-platform environments
- ▲ Cost-effective IT scalability

UP FOR CHANGE. NOT UP AGAINST IT.

LightEdge is your premier enterprise partner for cloud, compute, networking, and storage. Partnership via collaboration is key to helping our clients determine a strategic path that makes the most sense for YOUR business. Compliance. Partnering. Growth. LightEdge.

MANAGED SERVICES

- ▲ Our business continuity plan prepares you for any unexpected disruption through Disaster Recovery, Runbook Processes, and Managed Backups.
- ▲ Workload management is a key element to our managed services offering. Upgrades, routine maintenance and performance monitoring are diligently carried out while ensuring the latest patches and security fixes are in place.

- ▲ Let our CISO be the staff extension you never had. Audit questionnaires, managed firewalls, and antivirus are just the beginning. Managed compliance-based security via our portfolio of certifications enables you to focus on your business instead of worrying about compliance.

COMPLIANCE SERVICES

- ▲ HIPPA / HITECH
- ▲ ISO 20000
- ▲ ISO 22301
- ▲ PCI DSS
- ▲ HITRUST
- ▲ SOC 1, 2, and 3
- ▲ ISO 27001
- ▲ NIST 800-53
