

CAPEX VS OPEX MODEL

DISCOVER THE BENEFITS OF OPEX

MEET WITH
AN EXPERT

OpEx solutions let you prioritize your clients by offering a controllable and predictive model without the upfront costs of a CapEx strategy. This allows you to redirect capital towards your business objectives, freeing you from the time, resources, and responsibilities associated with capital expenditures.

CAPEX	VS	OPEX
Significant Upfront Cost		Minimal Upfront Cost
Non-Predicatble or Unexpected Expenses		Not Responsible for Data Center Maintenance
Wasted Capacity/Resources		Fit to What You Need and Availability for Scaling
Obtaining Real Estate, Equipment Procurement, Design, Security, Compliance Requirements		LightEdge Owns and Operates All Data Center Locations with an Infrastructure Heavy Strategy and Experts on Site
Recruitment, Training, and Retaining Staff		Dedicated Team Serving as an Extension of Staff
Stuck in Long-Term Financing with Depreciating Capital		Flexible Contract with the Most Up-to-Date Infrastructure
TCO Contains Hidden Occurances		TCO is Completely Transparent
